LAHORE MEDICAL AND DENTAL COLLEGE

LAHORE MEDICAL AND DENTAL COLLEGE

Mission of LMDC

The Lahore Medical & Dental College is committed in its pursuit of excellence to providing the best academic facilities and atmosphere to its students.

Our mission is to: “Train future leaders of medicine who set new standards in knowledge, care and compassion”.

The well qualified and committed faculty of LMDC provides combination of nurturing support and challenge to the students to reach their maximum potential.

DEAPRTMENTAL CONSULTANTS / HIERARCHY PLAN

Medicine department teaching staff consists of

Name	Designation	Pictures	Qualification
Prof. Shamail Zafar	Head of		FCPS

	Department		
Prof. Asad Ullah Ijaz	Prof of Medicine		FCPS
Prof. Sarah Shoaib	Prof of Medicine		FCPS
Dr. Sohail Nasir	Associate Professor		FCPS
Prof. Mehrin Farooq	Professor		FCPS
Dr. Syed Khurram Shehzad Kazmi	Associate Professor		MRCP

INTRODUCTION

Medical education is a life-long process and MBBS curriculum is a part of the continuum of education from pre-medical education, MBBS, proceeding to house job, and post-graduation. PM&DC outlines the guiding principles for undergraduate medical curriculum and has defined the generic competencies and desired outcomes for a medical graduate to provide optimal health care, leading to better health outcomes for patients and societies. These generic competencies set the standards of care for all physicians and form a part of the identity of a doctor. Each competency describes a core ability of a competent physician. This study guide will give an insight to the students about all these competencies and how to plan their educational activities in the subject of medicine for the three years period.

PURPOSE OF GUIDE:

To facilitate undergraduate students to learn subject of Medicine in an effective manner, by enlightening them regards organization of the learning program, facilitates guides students in managing their studies through the academic year and guidance on assessments methods, exam rules and regulations.

TARGET AUDIENCE

1st, 2nd, 3rd, 4th and 5th year MBBS students

DURATION OF FINAL YEAR SESSION:

February 2026- DECEMBER 2026

TEACHING SYSTEM

1st, 2nd , 3rd , 4th and final Year ----- Modular System

LEARNING OBJECTIVES (*knowledge, skills, attitude*)

- to equip the students with specific knowledge, essential skills and appropriate attitude towards the human body
- to become problem solvers, dealing effectively with familiar and unfamiliar problems
- to become lifelong learners
- to direct their own learning and evaluate this activity
- to be able to reason critically and make justifiable decisions regarding patient management
- to practice evidence-based medicine
- to always ensure patient safety
- to ensure compliance with the legal system as it impacts health care and the PM&DC regulations

- to adopt a multidisciplinary approach for health promoting interventions
- Medical graduates should be able to demonstrate professional values of self and professional accountability, honesty, probity, and ethics
- Medical and dental graduates are expected to demonstrate exemplary professional conduct
- to be able to understand the pathogenesis of specific diseases
- to be able to take a thorough focused history and identify the patient's risk factors related to the disease process
- to be able to perform a physical examination on a patient, to diagnose specific diseases and rule out other diseases
- to formulate a provisional diagnosis with justification, and the likely differential diagnoses
- to be able to select appropriate hematological, biochemical and microbiological investigations and interpret their reports to confirm the diagnosis
- to be able to select specific radiological investigations for specific diseases
- to be able to apply evidence-based medicine concepts for the medical treatment of different diseases
- to be able to write prescriptions in appropriate format according to the disease

COURSE TO BE STUDIED (syllabus)

The course outline is followed as provided by UHS

TEACHING METHODOLOGIES FOR MEDICINE

- Interactive Lectures
- Tutorials
- Case based learning(CBL)
- Clinical Foundation Rotation Clerkship (C-FRC)
- Essential Skills to be learned in the skills lab
- Power point presentations by students
- Small group discussions
- Clinical ward rotations
- CPC's – using modern audio-visual techniques, distant learning using electronic devices and current Information technology facilities
- Journal Club meetings
- Self-directed learning is the most vital part of this module to solve problematic cases, go through different learning resources and discuss with peers and the faculty to clarify difficult concepts

LEARNING RESOURCES

Recommended books

- Davidson's Principles and Practices of Medicine 24th Edition.
- Kumar and Clark's Clinical Medicine 11th Edition
- Essentials of Clinical Medicine by Wasim Amer 1st Edition
- Current medical diagnosis and therapeutics
- Hutchison's clinical methods 25th Edition
- Macleod's Clinical Examination 15th Edition
- Online Journals and Reading Materials through HEC Digital Library Facility.

Technologies to be used

- Textbooks are the most important part of student learning for this subject
- Bed side learning with patients
- Hands-on activities and practical sessions to enhance the learning.
- Skills lab will be used for simulated learning of the basic skills related to the gastrointestinal system
- Videos from different authentic web portals to familiarize the students with the procedures and protocols.
- Computer and Internet resources are essential to gather the latest information about a specific disease.

ASSESSMENT METHODS

Formative

Theory:

4 combined MCQ tests and 1 Block exam (2 papers) in each block

Clinical ward test / End of Rotation (EOR) assessment, comprising of one long case (100 marks) and two short cases (100 marks) and one OSCE comprising of 15 stations (75 marks), 25 marks contributed by ward attendance and histories taken

Total marks= 300

Summative UHS examination

MCQs and OSPE taken in each block from 1st year to 4th Year

Final year MBBS 2 MCQ papers of 100 marks each

MEDICINE CLERKSHIP						
Theory			Clinical skills			Total Marks
Paper 1 MCQs	100 Marks	200 Marks	OSCE	10 stations x 5 marks= 50 marks	200 Marks	400 Marks
			OSVE	02 Stations x 10 marks= 20 marks		
Paper 2 MCQs	100 Marks		Short case	02 Short case x 30 marks = 60 marks		
			Long case	01 Long case x 70 marks = 70 marks		
Internal assessment (10%) Theory		50 marks	Internal assessment (10%) Practical		50 marks	100 Marks
Total=500 Marks						

Paper I	Paper II
CNS	Endocrinology
CVS	GI
Respiratory System	Liver
Rheumatic Disease	Infections
Renal	Hematology
Derma	Poisoning
	Psychiatry

FORMATIVE AND SUMMATIVE EXAM RULE AND REGULATIONS

ATTENDANCE REQUIREMENT FOR MEDICINE AND ALLIED

- Students are expected to attend all scheduled teaching sessions and examinations
- Attendance in lectures, tutorials, and wards is mandatory. Absence from these sessions will make the students ineligible to sit the final summative assessment.

- A minimum of 75 % attendance in the lectures and wards is mandatory to appear in the summative UHS examination
- Attendance will be recorded through a log-in/log-out biometrics system
- Absence due to illness must be certified appropriately by the General Physician

	G	21 Apr, 2026	Dr. Shazia Zulfiqar	GTTH	Gynaecology
	H	*16 Apr, 2026	Dr. Shazia Zulfiqar	GTTH	Gynaecology

* Batches will be posted in Surgery but will go to Gynae & Paeds on said date to attend the workshop.

Medicine is taught through integrating with basic subjects through interactive lectures, acquiring skills in skill labs and wards

Learning Objectives

- Understand basic medical sciences and their clinical relevance**
- Develop essential clinical skills for patient assessment**

The Main focus is on

- Interdisciplinary approach for comprehensive understanding**
 - Early clinical exposure for practical application**
- Emphasis on problem-solving and critical thinking**

Study Guide Medicine 2026

ROBUST FEEDBACK SYSTEMS:

Feedback on attendance report is forwarded to students and parents on daily basis.

- Feedback on academic performance Academic performance report is also regularly forwarded to students and parents.
- Individual students are given feedback on their academic performance in one to one session.
- MCQ and SEQ papers are also discussed with students in small groups. Parents of weak students are regularly contacted.

COUNSELLING

For students will include

- **Career Guidance**
- **Psycho-social Counselling**

COUNSELING FACILITIES FOR STUDENTS:

- Senior faculty members of Medicine department are actively involved in resolving academic and non-academic issues of allocated students.
- Individual students are also referred to the student counselor, if needed
